

## Real Results in Real-Time!

Simpli Mobile puts the information your drivers need right in their hands. Using any mobile device with internet access, drivers can log into Simpli Mobile and view all of their transports for the day.

Simpli Mobile connects drivers and dispatchers in real-time.

### Dispatch-to-driver Communication

- 1 Dispatch-to-driver Communication**  
Immediate dispatch-to-driver communication through Simpli Mobile significantly reduces dispatcher/driver radio traffic.
- 2 Driver Alerts**  
Drivers receive alerts as new trips, time changes and cancellations are made to their schedule.
- 3 Trip Status Updates**  
As the driver progresses through their route, the dispatcher can see in real-time the status of events change from arrive to perform or no show.
- 4 On Time Performance Tracking**  
Drivers status updates are time stamped to ensure drivers are performing their pickups/drop-offs on time.
- 5 No-show Trip Logging**  
Drivers can effectively track and record missed/no-show trips throughout the day
- 6 Odometer Tracking**  
Drivers are able to input their odometer reading directly into Simpli Mobile once they have arrived at their stop.
- 7 Streamlined Data Entry**  
Real-time data entry eliminates the need for manual processes and streamlines end of day paper work.
- 8 Reduced Human Errors**  
Instant communication between the dispatch and driver helps reduce human errors.
